

The Digital Challenge Innovation Pathway

- An open innovation tool introduced by DigiFed where **DigiFed, European enterprises and innovators** come together to solve **digital challenges** for which **new solutions** are required.
- A market tool approach which allows us to address specific market needs by solving real use cases
- Allows European innovators to be supported by both **EU** and the **Industry** while building new partnerships within the ecosystem
- DigiFed is working with **GE Hydro France, Acciona** from **Spain** and **EDF Hydro France**
