Smart4Europe2 has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No. 872111.

European Initiative
Smart Anything Everywhere

Final Event of the CSA „Smart4Europe 1+2“

**“Transforming SAE results into benefits for the
(European) Digital Innovation Hubs Ecosystem”
Introduction of *innomine* DIH**

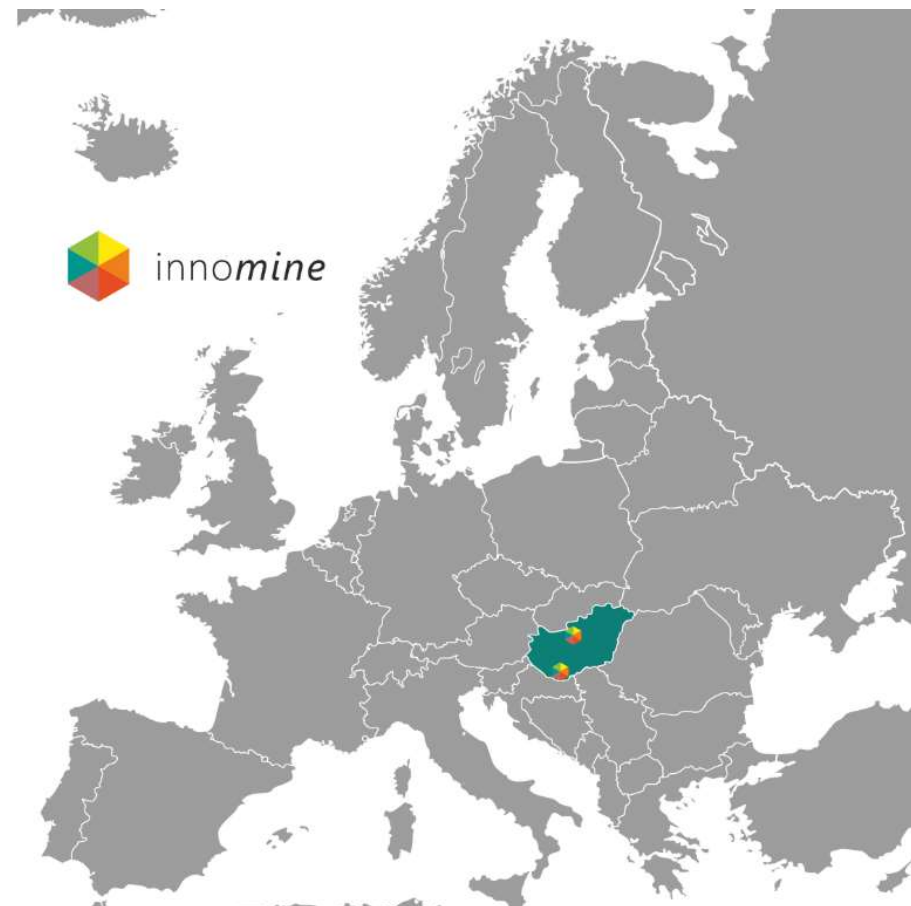

Smart4Europe2 has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No. 872111.

innomine DIH introduction

- Located in Hungary (Budapest and Pécs)
- Focus on digital innovation and smart manufacturing
- Working with 200+ SMEs in multiple EU regions

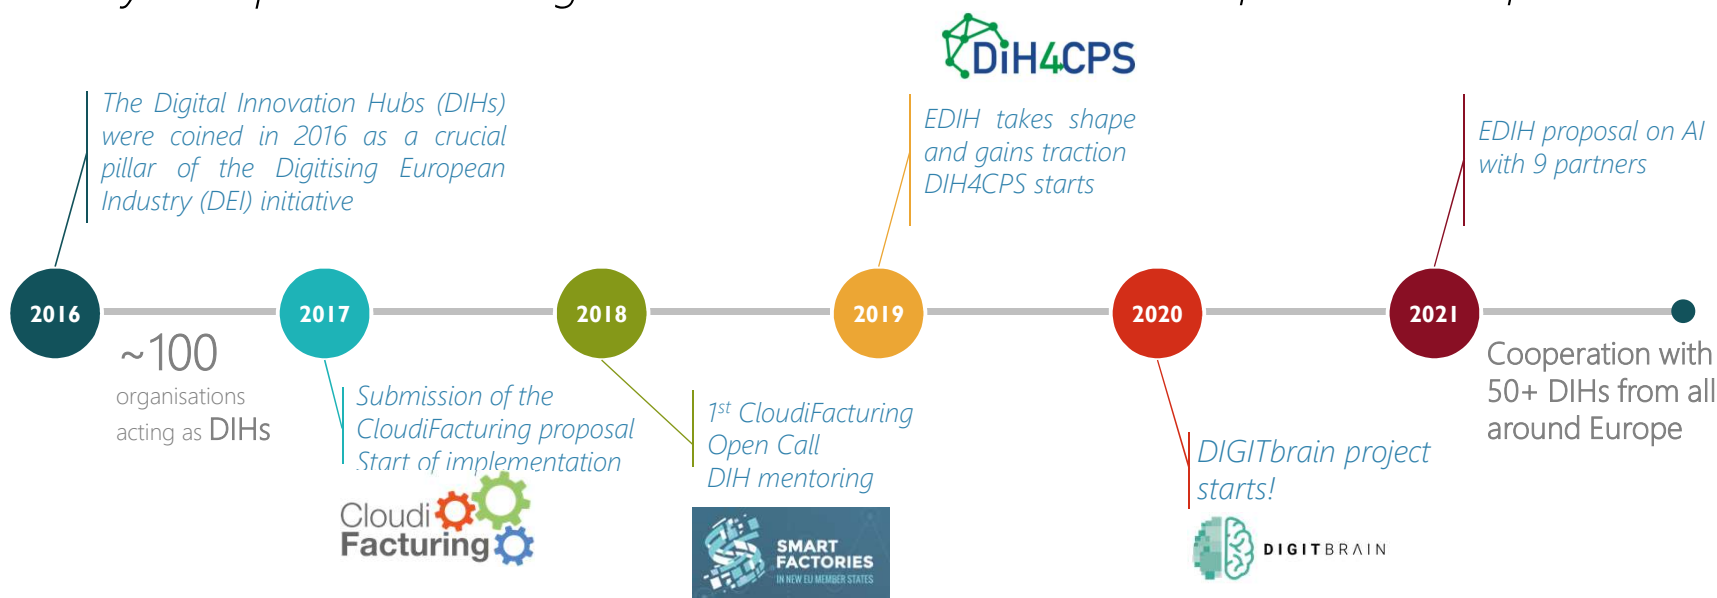

DIGIT BRAIN

Smart4Europe2 has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No. 872111.

Our history

"A Digital Innovation Hub is a one-stop-shop that supports companies and the public sector in their digital transformation. Apart from technological expertise, they have to be excellent in talking the language of their clients, understanding their needs, translating them to practical solutions and creating ecosystems. They also provide training courses and are intermediaries for access to finance."

Open Call for DIHs

DIH4CPS Consortia is looking for new DIHs to widen its network

Opportunity for DIHs:

offer their services and capabilities throughout the ecosystem and acquire more visibility

Deadline:
13 December 2021

No experiment or consortia set-up is needed

Funding: 20.000 EUR/applicant

Application: short proposal introducing the DIH and its services

Geographical regions which are currently underrepresented in the consortium will be prioritized
